

2.5 Granite Bay

A meteorology tower was placed in a 5-acre dirt field behind a public-school owned transportation building at 5455 Eureka Road, Granite Bay, CA 95661 (Figure11). This site is about 35 km northeast of Sacramento on the eastern edge of the San Joaquin Valley. The field was generally free of obstructions and was surrounding by low-lying trees and brush (Figure 12).
